

NEWS RELEASE

New West Opportunities Selected as a Finalist for the 2017 Alberta Export Awards

La Jolla, California/November 6, 2017 – The New West Opportunities (NWO) Partnership would like to congratulate the firm’s Alberta-based Partners, Associates and staff on, once again, being nominated as a Finalist for the prestigious Alberta Export Awards – this year in three categories: *Oil and Gas Service and Supply*, *Professional Services*, and *Leadership*.

Speaking following the firm’s Distribution and Supply Chain Client Roundtable in La Jolla, California, NWO Co-Chair Ryan Matthews stated, “New West has had another outstanding year in working with our Alberta-based clients and helping them further expand and diversify the ex-Alberta, ex-Canada markets they serve. The results speak for themselves, not only in terms of our own all-time-high export revenues but, much more importantly, in the hundreds of millions of dollars in global supply chain opportunities that Alberta companies – our partners – are now tapping into.”

Matthews continued, “It makes it even more satisfying to know that New West continues to contribute and deliver real and meaningful value, both directly and indirectly, in helping sustain and grow employment and investment in many of our partner companies. Even more so, when many of these companies continue to face much slower activity levels back home.”

Shane Pospisil, NWO’s Chief Operating Officer, added his congratulations, “Another job well done *Team New West* and, sincerely, best of luck to all the Finalists. Clearly, you are all ‘Award Winners’ because you have chosen to compete and have demonstrated your respective talents and ability to compete successfully on the international stage.”

The 2017 Alberta Export Awards will be given out on Thursday, November 23, 2017 at a Gala Luncheon which will be hosted at the Hyatt Regency in Calgary, Alberta.
