Dan Fontaine, Business Development Specialist
Economic Development Brandon
410 - 9th Street
Brandon, Manitoba R7A 6A2

Mr. Fontaine: *Dan:*

On behalf of the Northern Eagle IP BioFuels Project Development Team, I wanted to **THANK YOU** and Mr. Ray Redfern for the time you took out of your busy schedules to meet with your potential Northwestern Alberta 'Sister Project' host communities at their virtual meeting late last month. We often find that the sharing of best practices is largely how communities and regions learn, adapt, and continually get better at delivering the highest-quality business and investment attraction services and programming for their particular jurisdictions.

Both of you were truly marvelous in the contributions you made, in the stories you shared, and we had an opportunity to see -- first hand -- the passion, dedication and professionalism that you bring to the highly-collaborative, results-focused Westman Opportunities Leadership Group (WOLG) -- and to the Western Manitoba communities you represent and work with. Further, the value-added support you continue to provide -- across the three non-aligned projects we are currently advancing through detailed project scoping and due diligence -- is indeed welcoming and refreshing in these challenging economic times.

And rest-assured, this is the only take-away we need at this point to reaffirm our ongoing interest in the Western Manitoba-based opportunities we are currently looking at. After all, our business model is premised on each of these projects standing on their own merits, without any market-distorting government grants and/or subsidies, which we firmly believe should be the case across all of our existing and prospective Fund-based assets and operating entities.

Thanks again and I look forward -- we look forward -- to continuing the dialogue.

Sincerely,
Shane Pospisil
